**Subject:** South Carolina Needs Uber!

Ridesharing is a safe, clean, convenient, and affordable choice in transportation. It is terribly disappointing to see anyone, including the PSC, stand in the way of such an innovative concept. South Carolina should be taking the necessary steps to lead this country forward. It is vital for the well being of all citizens that progress be encouraged. Help us work towards solutions! South Carolina needs Uber!

Sincerely,  
Ryan Lipinski

Dear South Carolina Public Service Commission

I am a firm supporter and patron of Uber.

Removing ridesharing from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides.

I urge you to support Uber!

Neil Stevenson

PSC,

As a dual Carolinian, growing up in SC and currently residing in Charlotte, NC, I strongly believe you are doing a disservice to the residents and visitors of SC by not allowing Uber to operate in the state. I have been using the Uber Service almost 2 years and have yet to have an unpleasant experience. I have had many more unpleasant experiences in taxis. I know the taxis demand and supply is not as high in SC but that is all the more reason to allow Uber. I not only use Uber in Charlotte, but I use Uber while traveling to other cities/states and the service is a much welcomed convenience when visiting unfamiliar places. Lastly, and in my opinion most importantly, Uber service decreases not only the amount of DUIs but the amount of drivers that risk not only their lives, but the lives of others by getting behind the wheel when alternate transportation is not available or may take a longer time to pick them up.

Please reconsider your hasty decision to discontinue allowing the Uber service and think of the great citizens of your state.

Sincerely,  
Reedy McGee

**Subject:** SC Needs UBER!

I was thrilled when Uber came to Charleston after having used the service in LA several times. What a joy to contact a ride service and have someone available to pick me up with in minutes versus having to wait for a cab often up to an hour or more. All of the Uber vehicles I've ridden in have been clean, comfortable and well kept...I can't say that for my last cab experience. The drivers have been pleasant and with the help of GPS have gotten me to my destination without hassle. Again, I can't say this for the cab companies. Please reconsider the cease and desist order and give the people of Charleston an opportunity for choice. Thank you for your consideration.  
Rhonda Myers
